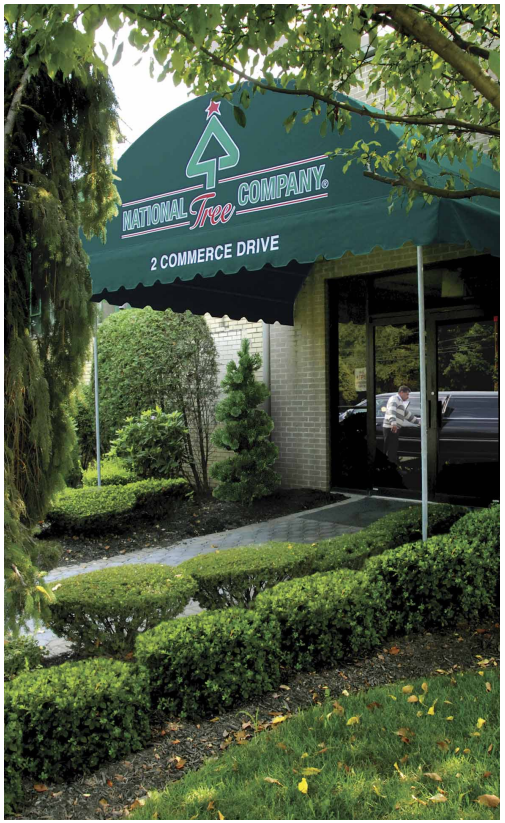
NATIONAL Tree COMPANY®

2021
Product Catalog

The Company



CORPORATE HEADQUARTERS

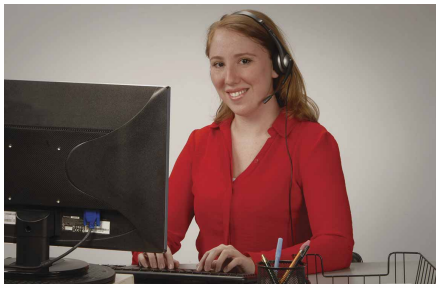
Located in Cranford, New Jersey, our headquarters site includes a 10,000 sq. ft. showroom, fully-staffed customer service department and warehouse facility.

PRODUCT SHOWROOMS

Our Cranford and Hong Kong showrooms display a diverse selection of holiday decorations in a relaxed environment for customer review and consideration.

WAREHOUSING & FULFILMENT

We maintain over 400,000 sq. ft. of warehouse facilities to accommodate small order quantities and provide internet fulfilment.



CUSTOMER SERVICE

Our trained and courteous customer service staff will assist with product questions and parts orders. Reach us toll-free at 888-494-7278 or via email at service@nationaltree.com.

The Technology

Below are descriptions of the varying technologies utilized in many of our products. The logo/icon image will appear next to the products shown that feature these technologies.

DUAL COLOR® **Dual Color® Lights –** Our Dual Color light system features low voltage LED bulbs that change from warm white to multicolor and includes a switch to control *ten different light functions*. These long lasting and energy-efficient bulbs also hold the prestigious Energy Star certification in both the US and Canada.

The ten light functions are: steady warm white; twinkle warm white; steady multicolor; twinkle multicolor; steady pastel; fading warm white to multicolor; radom fading; fading warm white; fading multicolor; flashing warm white to multicolor.

Feel Real® TIP TECHNOLOGY **Feel Real® Branch Tips –** Throughout the catalog you will see the Feel Real® logo indicating that the item has the addition of PE branch tips. These crush-resistant PE (polyethylene) tips give our trees and greenery a realism that best mirrors nature's design.

POWERCONNECT™ **PowerConnect™ –** Trees with this feature will no longer require the multiple light string and extension cord connections between tree sections. Electrical connections are made through the tree center poles. This system can be configured for low voltage LED or incandescent light sets.

MEMORY-SHAPE® **Memory-Shape® –** Memory-Shape products are constructed with specially designed branches that are pre-shaped during production. Items that feature Memory-Shape branches will considerably reduce or eliminate the need for branch shaping by the consumer.

Infinity Lights® **Infinity Lights® –** These LED light sets feature a unique mini bulb on strings that contain a three-fold increase in volume of lights producing an overall brighter glow. These sets are available with warm white or Dual Color® lights.

cosmic Lights® **Cosmic Lights® –** Similar to Infinity Lights in their increased volume per product, the mini LED bulbs of Cosmic Lights are located at the tip of an elongated base providing a unique design element. These sets are available with warm white or Dual Color® lights.

LONG LIFE LED LIGHTS **LED Lights –** Many products are pre-lit with energy-efficient and long lasting low voltage LED lights. This icon will quickly identify the products pictured in this catalog that are pre-lit with these LED lights.

Battery Operated with Timer – All items shown with this icon are pre-lit with battery operated LED lights. Included is an integrated 6 hours ON/18 hours OFF timer. All battery operated products are rated for outdoor use. ***Unless otherwise noted, warm white LED lights are used.***

Table of Contents

Please note: this catalog shows only products that are stocked in our New Jersey warehouses.

Unless otherwise indicated, all Floor Trees (pages 4-39) feature hinged branch construction. Many of these tree styles are available from stock in alternate heights, diameters and lighting options. Please consult our Price List for details.

Kit is available with battery operated LEDs in head section

RAC-JLBY026-B

Santa's Elf Kit

This 19 piece kit provides all of the pieces needed to decorate a holiday tree as one of Santa's elves. Includes elf head with red cap, collar and long striped scarf; two arms with red sleeves and mitten hands, one holding a holiday sign; four candy cane buttons and twelve snowflakes.

Can be used to trim real or artificial trees.

RAC-JL18057B

Kit is available with battery operated LEDs in head section
