

Product Catalog 2014

Corporate Headquarters

Located in Cranford, New Jersey, our headquarters site includes two product showrooms, fully-staffed customer service department and warehouse facility.

Product Showrooms

Our Cranford and Hong Kong showrooms are filled with a diverse selection of holiday decorations, updated regularly to display the finely-crafted products only National Tree Company can bring you.

Customer Service

Our trained and courteous customer service staff is ready to assist with product questions and parts orders.

Warehousing

We maintain a warehouse facility to accommodate smaller order quantities and provide internet fulfillment.

Product Category:

ACCESSORIES	55-56	TREES	2-20
SHRUBS AND TOPIARIES	57-60	SLIM TREES	21-26
BATTERY OPERATED ITEMS	29-43	ENTRANCE TREES	27-31
FIBER OPTIC TREES	44-45	WREATHS	32-36
DECORATIONS	46-54	GARLANDS	36-38

This catalog contains only items that are stocked in our New Jersey warehouse.

National Tree Company offers its products on a made-to-order basis. Though the items shown in this catalog are a good representation of the product lines, the large availability of options for alternate styles, shapes and sizes would make their inclusion impractical.

Many of the available options can be found in our 2014 Price List, where descriptions and specifications are listed by item number

You may also contact our corporate sales team directly, or any one of our representatives, with product questions. A listing is on the back cover of this catalog.

The following information explains specific product features.

Tree Construction

The trees shown on pages 3-24 are constructed with hinged branches; hook-on or wrapped construction is also available for most of these items.

Feel-Real. Throughout the catalog you will see the FEEL-REAL® logo indicating that the item has the addition of PE branch tips. PE (polyethylene) tips give these trees and greenery a realism that best mirrors nature's design. PE branch tips are crush-resistant and molded from real tree branches.

Product Lighting

Trees, wreaths, garland and greenery are available either unlit or pre-lit with a variety of lighting options. The icon shown on the right will quickly identify products pictured that are pre-lit with LED lights.

National Tree Company retains its partnership with **Energy Star** - an honor awarded to our Low-Voltage LED Light strings for meeting the strict energy-efficiency measures of the Energy Star program. See additional information about the Energy Star award on the following page.

Coordinated Styles

Most of the tree styles shown can be paired with coordinating wreaths, garlands, swags and other decorative greenery.

Shrubbery Features

Shrub and Topiary products are maintenance-free and can be used for either indoor or outdoor display. These items are resistant to birds, animals and insects, and never need water, dirt or pruning.

DUAL COLOR™ Lights

Available from National Tree Company

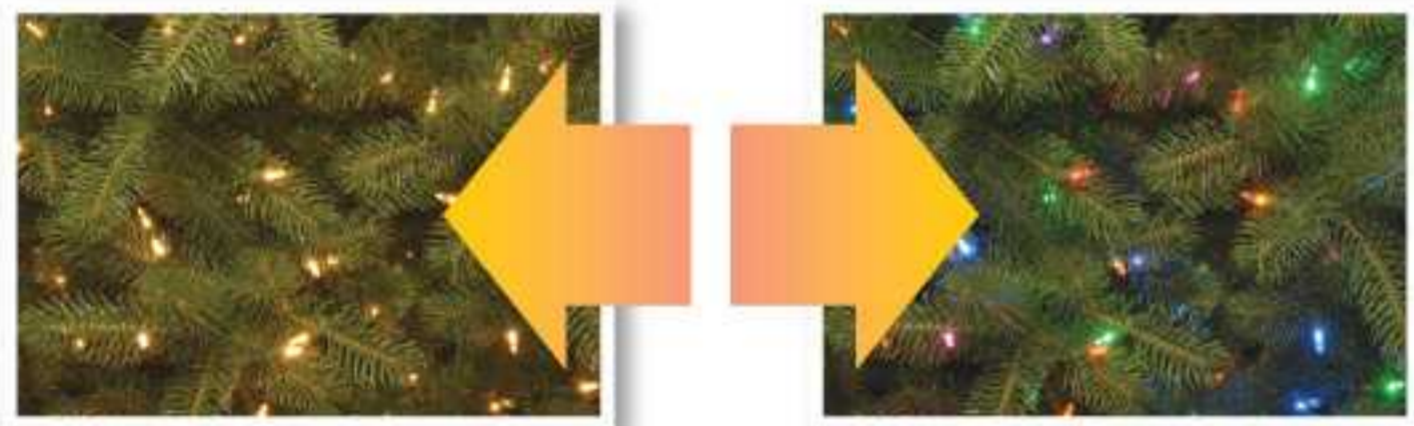

A Unique System

The main feature of the Dual Color light system is the ability of the bulbs to change from soft white to multicolor with the press of a button. Of equal importance is that the bulbs are Low-Voltage LEDs, the most efficient light bulb available for this application.

Trees that are pre-lit with Dual Color light sets include a foot switch to control light operation. Dual Color light strings are available on all varieties of trees, wreaths, garlands and greenery.

Low Voltage LED Features

- Last for 25,000 hours compared to the 3,000 hours of incandescent bulbs
- Use only 1.15 watts of power per 100 lights compared to the 44 watts of incandescent bulbs
- Bulbs are cool to the touch and pose no risk of shock or fire
- Bulbs are specially designed to emit the same warm glow and retain the same appearance of conventional bulbs

Lights change from soft white to multicolor

ENERGY STAR Partner

Our Low Voltage LED light sets have also been awarded inclusion in the prestigious ENERGY STAR program, certified in both the US and Canada.

Earning the ENERGY STAR label signifies that our products meet strict energy efficiency guidelines set by the US Environmental Protection Agency. Lighting products that have earned the ENERGY STAR label deliver exceptional features, while using less energy. The lights are independently tested to meet strict lifetime and electrical requirements.

Nine Light Functions

The included foot pedal switch now controls **nine** different light functions:

- Steady Soft White • Steady Multicolor • Fading Soft White • Fading Multicolor • Fading Soft White to Multicolor • Twinkling Soft White • Twinkling Multicolor • Twinkling Soft White to Multicolor (slow speed) • Twinkling Soft White to Multicolor (fast speed)

DUAL COLOR™

Tree Top Star Decoration

For National Tree Company Artificial Trees lit with Dual Color Lights

TA21-11L

Dual Color tree top star that changes colors and actions in unison with the lights on the tree.

For use only with artificial trees pre-lit with Dual Color LED lights that includes the extra end connector in the tree top section.

Battery-Operated with Timer

All items in this section are pre-lit with battery-operated low voltage LED lights. Each battery pack features an integrated **6 hours ON / 18 hours OFF timer** to control lights.

DUAL COLOR™ Lights

Dual Color LED lights are available on select battery-operated decorative greenery products. All items pre-lit with Dual Color LEDs include a switch to control multiple light actions.

Low voltage LED bulbs are energy-efficient, long-lasting and cool to the touch. Lights and battery packs are rated for outdoor use.

INSTABLOCK™ FENCEBRAID

Adds privacy as well as natural beauty to an ordinary chain-link fence

INSTABLOCK Fencebraid is an easy-to-install privacy hedge lattice for use with chain-link fencing. When installed, a beautiful hedge-like effect is created, achieving a natural appearance and the privacy desired.

INSTABLOCK added to chain-link fencing will:

- * Create privacy and add beauty around property
- * Hide unattractive areas around home or business
- * Provide barriers at schools or roadways
- * Add seclusion for pools and backyard entertaining

INSTABLOCK Fencebraid is available in 64 piece kits with each kit covering eight linear feet. There are three lengths to choose from:

- 4 ft. length, item FNC4-4D
- 6 ft. length, item FNC4-6D
- 8 ft. length, item FNC4-8D
